This study abroad will focus on the design and building of a sensory garden for Casale Forabosco, a community-based agricultural facility for people with autism. Students will live and work on the campus of the University of Perugia and collaborate with Italian students and under the direction of Professor David Grohmann.

In addition to the project focus, students will explore and sketch the urban environs of the ancient city of Perugia, learn its fascinating history and participate in weekend field trips to other cities in central Italy, potentially including Siena, Florence, Rome and Assisi.

**Info Sessions:**
Monday, January 13, 12pm (Gould 142)  
Thursday, January 23, 12:30pm (Gould 440)  
Monday, February 3, 12:30pm (Gould 142)

**Apply:**
Visit [larch.be.uw.edu/programs/study-abroad](http://larch.be.uw.edu/programs/study-abroad) for more info. **Applications due February 15, 2020.**

**Questions?** Contact Professor Daniel Winterbotton (nina@uw.edu)
