June 21 – August 20

Interns Receive:
$200/week stipend,
four ESRM 399 credits at
in-state tuition level,
and housing for Summer
A & B quarter at ONRC

About the Olympic Natural Resources Center

The Olympic Natural Resources Center (ONRC) is part of the School of Environmental and Forest Sciences and is located in Forks, WA. The center investigates important issues in forestry and aquatic resources through collaborative and transdisciplinary work to support local communities on the Olympic Peninsula.

Summer 2021 Internship Program

ONRC is hiring four UW students for the Summer 2021 internship program! Interns will work on a wide variety of projects throughout the summer where they will gain valuable experience and skills. Interns will be working on several long-term forest ecology and management studies on the West End of the Olympic Peninsula. This will include collecting plant growth data on ONRC’s ethnoforestry study and taking pre-treatment measurements on a brand new large-scale watershed study in the Olympic Experimental State Forest.

Requirements for position:

- Commitment to work environment that promotes diversity, equity, and inclusion
- Ability to spend 40 hours/week in variable field conditions including heavy rain and tough terrain
- Ability to work well in teams to accomplish tasks
- Ability to follow a detailed data collection protocol
- Willingness to learn and apply new skills for field measurements

To Apply

Submit 1) a 1-page cover letter detailing your interest in the internship and any relevant educational or professional experience; and 2) your resume or CV to:

Courtney Bobsin
cbobsin@uw.edu
