

Research Proposal Compensation Policy

This policy addresses the UW requirement that units be consistent with the GIM (Grant Information Memoranda) policy that personnel are not allowed to be funded 100% on grants when preparing and submitting research proposals.

- **Research Professors (Assistant, Associate, Full):** All Research Faculty receive 5% FTE salary support from a SEFS administrative budget, except during quarters when they are teaching a class*. During these instructional quarters, they receive 10% FTE salary support per course credit hour from SEFS instructional budgets, and do not receive the 5% administrative salary support.
- **Staff with PI status:** All PIs receive 5% FTE salary support from a SEFS administrative budget during any month in which they submit a research proposal to the SAGE system.
- **Professors Without Tenure (WOT):** WOT faculty do not receive SEFS support for submission of research proposals.

* We only pay for formal classes that are listed in the time schedule. Examples of non-compensated credits include Independent Study, Capstone and Research credits.
